4	D013515	Profession Specific Nursing Diagnosis and Treatment of People with Neuromuscular Diseases, Cerebral Palsy or Multiple Sclerosis	3	2		90

2.5 Medicine Track

Students with a medical degree choose two (profession-specific) courses in the first year of study from the courses which occur in the other tracks (courses programmed in the first year of study, i.e. the courses marked with '1' in the column 'MT1'); one of these courses is taken in the first semester and one in the second.

In the second year of study, students also choose two (profession-specific) courses from the other tracks (but now courses programmed in the second year of study, i.e. the courses marked with '2' in the column 'MT1'), also according to the principle: one course per semester.

Teaching

When a course is not taught (solely) in the programme's language of instruction, the effectively used languages are indicated in square brackets following the cours name, using the following ISO codes:

bg: Bulgarian de: German es: Spanish ja: Japanese pl: Polish sh: Kroatian/Serbian zh: Chinese

cs: Czech el: Greek fr: French nl: Dutch pt: Portuguese sl: Slovene da: Danish en: English it: Italian no: Norwegian ru: Russian sv: Swedish

Semester

Semesters are indicated by their number (1 or 2); semester 3 represents the summer period and J indicates a course spanning semesters 1 and 2. When a capital letter precedes a semester number, the course has multiple offerings. The letter indicates the offering concerned.

When a semester is shown in brackets, the course in not offered this year in the specific offering.

The offering frequency and first year of offering are indicated by the following codes:

a: bi-annually c: annually, from 2022-2023 f: annually, from 2023-2024 i: annually, from 2024-2025 g: bi-annually, from 2023-2024 j: bi-annually, from 2024-2025 e: tri-annually, from 2022-2023 h: tri-annually, from 2023-2024 k: tri-annually, from 2024-2025
