

Programme jointly offered by Ghent University, Vrije Universiteit Brussel
Master of Science in Photonics Engineering

Language of instruction: English

Programme version 5

1 General Courses

52 credits

These general courses are taught in parallel at Ghent University and at Vrije Universiteit Brussel (with lecturers from both universities).

A key feature of this programme is that students can choose to take the first master year without being physically present in Belgium, because all courses from the programme will be live streamed and/or recorded. Students who choose this option, select the 'O' sessions ("online") in their curriculum.
