

## Advances in Anaesthesia and Resuscitation, Part 2 (D002693)

**Course size** *(nominal values; actual values may depend on programme)*

**Credits 6.0**

**Study time 150 h**

### Course offerings and teaching methods in academic year 2024-2025

A (Year)	Dutch	Gent	lecture
----------	-------	------	---------

### Lecturers in academic year 2024-2025

De Baerdemaeker, Luc	GE33	lecturer-in-charge
Coppens, Marc	GE33	co-lecturer
Heyse, Björn	GE33	co-lecturer
Moerman, Anneliese	GE33	co-lecturer
Wouters, Patrick	GE33	co-lecturer

### Offered in the following programmes in 2024-2025

	crdts	offering
<a href="#">Master of Medicine in Specialist Medicine(main subject Anaesthesia and Resuscitation)</a>	6	A

### Teaching languages

Dutch

### Keywords

Anaesthesia, resuscitation, perioperative medicine, medical knowlegde

### Position of the course

This course aims to continue the acquisition of more specialised medical knowledge, to develop problem solving capacity and to apply it in practice.

### Contents

The trainee gains basic knowledge in a broad number of fields within the speciality necessary for the applications in practice. The content that will be dealt with, is related to the learning outcomes. The trainee functions with increasing independency in an environment of increasing complexity that is evidence based.

Topics (interuniversity) course:

Pregnancy, anaesthesia for surgery, paediatrics and geriatrics, capita selecta, anaesthesia voor specific pathology

### Initial competences

You can download the list of prerequisites on [oasis.ugent.be?cursuscode=D002693&taal=en](https://oasis.ugent.be?cursuscode=D002693&taal=en).

Having successfully completed the course "Advances in anaesthesia and resuscitation, part 1"

### Final competences

- 1 Continuing the acquisition of a more specialized and in-depth knowledge in the field of speciality.
- 2 Applying the acquired scientific knowledge and methodology in the field of the speciality (scientific attitude of patient care).
- 3 Functioning as an expert for external advice (for family doctors and specialists) based on the acquired expertise.
- 4 Working on the enhancement of the quality of the speciality.

### Conditions for credit contract

Access to this course unit via a credit contract is determined after successful competences assessment

### Conditions for exam contract

This course unit cannot be taken via an exam contract

## Teaching methods

Lecture

## Extra information on the teaching methods

e-learning modules

The programme is established by an interuniversity committee. Its organisation and information on the course is available on the BVAR website ([www.sarb.be](http://www.sarb.be)).

The e-learning modules are available on Zephyr (Ugent).

## Study material

Type: Handbook

Name: Clinical Anesthesia. Barash.

Indicative price: € 150

Optional: yes

Type: Handbook

Name: Miller's Anesthesia

Indicative price: € 430

Optional: yes

Type: Handbook

Name: Clinical Anesthesia, P. Barash, last edition

Indicative price: € 150

Optional: yes

Type: Handbook

Name: Anesthesiology. Problem-oriented patient management. Yao & Artusio's

Indicative price: € 120

Optional: yes

Type: Slides

Name: AVU course

Indicative price: Free or paid by faculty

Optional: yes

## References

Anaesthesia journals: Anesthesiology, British Journal of Anaesthesia, Anesthesia & Analgesia.....

## Course content-related study coaching

Consultation of lecturer (appointment or via email)

## Assessment moments

continuous assessment

## Examination methods in case of periodic assessment during the first examination period

## Examination methods in case of periodic assessment during the second examination period

## Examination methods in case of permanent assessment

Oral assessment

## Possibilities of retake in case of permanent assessment

not applicable

## Extra information on the examination methods

- Oral examination: 4 questions according OSCE-principle (erkenningcommissie)
- General principle: 80% attendance is expected

## Calculation of the examination mark

The final evaluation takes place at the end of the training

A "pass" / "fail" result is given.
