Teaching languages

Dutch

Keywords

Income tax, personal income tax, taxable amount, computation of the tax, tax return

Position of the course

Undoubtedly the personal income tax is one of our main tax systems, given the number of taxpayers submitted to this tax and its budgetary impact. Moreover the legislation on personal income tax contains a significant number of essential provisions to which is referred in other parts of our income tax system. The basis knowledge which a master student should have acquired during his bachelor studies, is extended and deepened in the master program, so that the student acquires an in-depth knowledge of the personal income tax.

Contents

The definition of concepts used in the WIB 1992
 The taxable amount for the various categories of income, among other things:

- property income
- profits from industrial, Agricultural and commercial activities
- proceeds from a liberal profession
- salaries
- pensions
- miscellaneous income
- expenses deductible from the total net income and other tax incentives, with special attention for the tax aspects of financing the acquisition of real estate;
- computation of the tax
- the tax return for the personal income tax

Initial competences

Concepts, principles and standards of different topics in Law.
 This course builds on certain learning outcomes of the following course units: introduction to Law, Private Law and Commercial and Economic Law.

Final competences

- 1 Calculating of property income, movable assets income, earned income and miscellaneous income.
- 2 file a more complex tax return.
- 3 Insight into the structure of the personal income tax.
- 4 Being able to analyse concrete cases using different legal sources.

- 5 Being able to search and use the most recent legal sources.
- 6 Being able to explain that there are different interpretations and opinions of fiscal rules.
