

Faculty of Engineering and Architecture

Exchange Programme Information Engineering Technology

Language of instruction: English

Programme version 3

## 1 General Courses

This list is only meant for incoming exchange students, and lists the English courses from the Information Engineering Technology programme of the Faculty of Engineering and Architecture (FEA, courses beginning with an E).

The exchange programme for incoming exchange students is determined in accordance with the faculty's modalities for exchange, and comprises the following number of ECTS:

- if the exchange spans one semester: minimum 20 ECTS, maximum 30 ECTS
- if the exchange spans one year: minimum 40 ECTS, maximum 62 ECTS

At least 50% of the courses must be chosen from the Faculty of Engineering and Architecture (course codes starting with E). Courses from another faculty can only be subscribed to on request and in consultation with the International Relations Office.

Exceptions on the minimum requirements are only possible in specific situations (e.g. students who only need to pass the master's thesis to achieve their degree at the home university), and exceptions are always motivated, in accordance with the faculty's modalities for exchange.

The courses marked with reference 'a' are taught in Dutch, but can be taken by incoming non-Dutch speaking students (by means of English course material, with guided self-study).
