Entrepreneurship, developing and presenting an entrepreneurial idea

Position of the course

The aim of this course is to introduce the students to entrepreneurship. We discuss the characteristics and logics of entrepreneurs, and we show that different types of entrepreneurship exist, each with their own challenges. We discuss important aspects of generating, developing, and presenting an entrepreneurial idea, and invite entrepreneurs to share their experience in class. Also the practical requirements to start up a business are discussed (legal forms and requirements). Students are expected to form teams and apply these insights by generating, developing, and presenting an own idea.

Extra information on the examination methods

Periodic evaluation (50% of the total score): The exam consists of a multiple choice exam with 'standard setting' (both in the first and the second exam period).

Non-periodic evaluation (50% of the total score): Students hand in multiple assignments in teams/groups: short written reports regarding different aspects of their idea, and an oral presentation of the final idea (in the form of a pitch).

Individual scores for these assignments are subject to peer-evaluation. The score for this non-periodic evaluation is transferred to the second exam period.

Calculation of the examination mark

50% multiple choice exam with 'standard setting'; 50% groep assignments
