

INTERNATIONAL MASTER OF SCIENCE IN SOILS AND GLOBAL CHANGE (SOIL BIOGEOCHEMISTRY AND GLOBAL CHANGE)

PROGRAMME JOINTLY OFFERED BY AARHUS UNIVERSITY, UNIVERSITY OF NATURAL RESOURCES AND LIFE SCIENCES, VIENNA, UNIVERSITY OF GÖTTINGEN

120 ECTS CREDITS - LANGUAGE: ENGLISH

INHOUD

The International Master of Science in Soils and Global Change (IMSOGLO) programme aims at teaching the knowledge, tools, technologies and applications in the context of soils and global change by bringing together the expertise of research groups at 4 renown EU universities: Ghent University, University of Natural Resources and Life Sciences (Vienna), University of Göttingen, and Aarhus University.

The academic partners are complementary, and each have specific expertise in biogeochemical and physical aspects of soils under global change and can thus provide the necessary multidisciplinary approach to cover the complete chain:

- All partner Universities work on soils worldwide, which is useful to provide a variety in classroom examples to the students and allows a rich choice in study areas for thesis research;
- Aarhus University has a strong profile in soil physics and global change issues in arctic and temperate regions;
- The University of Natural Resources and Life Sciences (Vienna) has a strong profile in soil microbiology and greenhouse gas fluxes in temperate and tropical soils;
- The University of Göttingen has a strong profile in biogeochemistry of agricultural and natural soils of temperate and tropical soils;
- Ghent University has a strong profile in physical and chemical soil degradation research and optimal soil & water management worldwide.

The academic partners collaborate closely with non-educational partners from both the public and private sectors. Associated Partners have a structural regular commitment towards the programme, and the large networks at all partner institutes allow options for theses and internships through ad hoc opportunities, offers or requests.

STRUCTUUR

This 2-year programme contains 120 ECTS credit units and has two specialisation options of 90 ECTS:

- **Soil biogeochemistry and global change** is organised by Ghent University, the University of Natural Resources and Life Sciences Vienna and the University of Göttingen and leads to a joint MSc-diploma issued by these 3 universities.

Student mobility within Europe is an integral part of the 2-year programme. Both specialisations share the introductory module of Soil Fundamentals at Ghent University (first semester, 30 ECTS, which includes a joint primer event) and a joint summer activity at the end of the second semester.

The courses and locations during the second and third semester depend on the chosen specialisation. Students follow mandatory courses and choose eligible courses up to a total of 30 ECTS per semester (see www.imsoglo.eu for a list of mandatory and elective courses). The MSc-thesis is done at one of the universities organising the specialisation, with co-supervision from the other university. It is also possible to do the thesis in conjunction with one of the associated partners: Joint Research Centre of the European Community, or Chinese Academy of Sciences (Nanjing).

ARBEIDSMARKT

A needs analysis at the start of IMSOGLO has shown there is a substantial need for soil consultants primarily in the fields of agronomy and pollution. There is a larger need for academics, mainly in the fields of land-use change and greenhouse gas emissions, which strongly proves the need and relevance for the scope of the programme: soils and global change. Analysis of alumni of preceding MSc-programs showed that almost 45% of the alumni took jobs in the public sector, mostly in research and partly in education. About 50% of the alumni took jobs in either consultancy, industry or agriculture/agro-industry.

INTERNATIONAL MASTER OF SCIENCE IN SOILS AND GLOBAL CHANGE (SOIL BIOGEOCHEMISTRY AND GLOBAL CHANGE)

TOELATINGSVOORWAARDEN VOOR HOUDERS VAN EEN VLAAMS DIPLOMA

1 Na onderzoek van de bekwaamheid van de student om de opleiding te volgen:

- Een diploma van een bacheloropleiding in het academisch onderwijs binnen één van de volgende studiegebieden (of een combinatie ervan):
 - Biotechniek
 - Industriële Wetenschappen en Technologie
 - Toegepaste Biologische Wetenschappen
 - Toegepaste Wetenschappen
 - Wetenschappen

Extra info toelatingsvoorwaarden (Vlaams diploma)
Alle studenten die voldoen aan de hierboven genoemde minimum toelatingsvoorwaarden kunnen worden toegelaten door het Management Board (MB), terwijl de Student Selection Group een toelatingslijst voorstelt. Voor alle studenten die een positief advies hebben gekregen van de MB van IMSOGLO en de Faculteitsraad van de Faculteit Bio-ingenieurswetenschappen van de Universiteit Gent met betrekking tot de toelating tot de opleiding, stelt het Afdelingshoofd van de afdeling Studentenadministratie en Studieprogramma's een officiële toelatingsbrief op. In deze brief worden de regels vastgelegd voor de wijze van inschrijving en wordt de participation fee vermeld. Een kopie van deze brief zal naar alle partnerinstellingen worden gestuurd.
Alle kandidaat-studenten (ongeacht het land waarin zij het diploma behaald hebben dat toegang verleent tot de opleiding) worden op gelijke basis toegelaten.

ADMISSION REQUIREMENTS FOR INTERNATIONAL DEGREE STUDENTS

The course is open to a holder of an academic Bachelor degree (minimum 180 ECTS credits) in pure or applied sciences (e.g., Chemistry, Biology, Geology, Physical Geography, Geo-ecology, Civil or Agricultural Engineering, Environmental or Agricultural Sciences, etc.) or an equivalent level from a recognised university or Engineering College.

The obtained bachelor degree must contain at least 40 ECTS credits in natural sciences (physics, chemistry, mathematics, ecology, biology, geography, environmental sciences and agricultural sciences).

Information on admission requirements and the administrative procedure for admission on the basis of a diploma obtained abroad, can be found on the following

page:

www.ugent.be/admission

Language requirements for this study programme differ from the required standard level for English taught study programmes as specified in the Ghent University Education and Examination Code:

English:

The English language proficiency can be met by providing a certificate (not older than 2 years) of one of the following tests: (TOEFL/IELTS predictive tests and TOEIC will not be accepted)

- TOEFL IBT 90
- ACADEMIC IELTS 6,5 overall score with a min. of 6 for writing

- ESOL CAMBRIDGE English CAE (Advanced)

"Language of instruction" is not accepted as a proof of language proficiency, except for applicants who have obtained a Bachelor and/or Master degree in a higher education institute of a country with English as the official language and with English as only mode of instruction (*).
(*): Antigua and Barbuda, Australia, Australian Territories, Bahamas, Barbados, Belize, Botswana, Cameroon, Canada, Cook Islands, Curacao, Dominica, Fiji, Gambia, Ghana, Grenada, Great Britain, Guernsey, Guyana, Hongkong, India, Ireland, Isle of Man, Jamaica, Jersey, Kenya, Kiribati, Lesotho, Liberia, Malawi, Malta, Marshall Islands, Mauritius, Micronesia, Namibia, Nauru, New-Zealand, Nigeria, Niue, Palau, Papua New Guinea, Philippines, Rwanda, Salomon Islands, Samoa, Seychelles, Sierra Leone, Singapore, St. Kitts and Nevis, St. Lucia, St. Vincent and Grenadines, South-Africa, Sudan, South Sudan, Tanzania, Tonga, Trinidad and Tobago, Tuvalu, Uganda, United States of America, United Kingdom Overseas Territories, US Territories, Vanuatu, Zambia or Zimbabwe.

Candidates having obtained their degree in one of the above-mentioned countries can provide an English language of instruction certificate issued, stamped and signed by the previous university.
