

# MASTER OF SCIENCE IN CHEMICAL ENGINEERING

MINORS: OPERATIONS MANAGEMENT - BIOSYSTEMS - ENVIRONMENT AND SUSTAINABLE DEVELOPMENT

120 ECTS CREDITS – LANGUAGE: ENGLISH – DEGREE: MASTER OF SCIENCE

## COURSE CONTENT

The Master of Science in Chemical Engineering offers students a comprehensive training to master the fundamental chemical engineering principles. A chemical engineer has to ensure the design, construction, improvement and maintenance of installations and equipment in the chemical industry.

As a graduate in chemical engineering you will be skilled to innovate, to manage an entire installation as well as to acquire a detailed insight in the performance of its individual parts and their interaction. This requires a combination of abstract reasoning but also of common sense, aiming at a practical implementation. Of course, you will also be trained to be involved in and lead research and development.

## COURSE STRUCTURE

The Master of Science in Chemical Engineering consists of 2 phases: a first one of 3 years, resulting in the academic degree of bachelor of science and a subsequent one of 2 years to obtain the master's degree in chemical engineering.

## CAREER PERSPECTIVES

As a graduate you will typically be employed in the chemical process industry. In addition, other companies where chemical transformations are implemented in the manufacturing process, such as the polymer, textile, food, pharmaceutical and environmental sanitation industry, offer various career opportunities. A master in chemical engineering typically supervises a team responsible for (chemical) production and focuses on the improvement and innovation of processes and products. Other opportunities appear in engineering companies where a you will be responsible for the design, construction and start-up of new production units. Furthermore, equipment design and construction companies employ many chemical engineers. Last but not least, universities and research institutes also recruit chemical engineers.

In short, a master in chemical engineering has a bright future in the modern, diverse and international chemical industry which is strongly anchored in (the extended neighbourhood of) our region.

# MASTER OF SCIENCE IN CHEMICAL ENGINEERING

120 ECTS CREDITS – LANGUAGE: ENGLISH – DEGREE: MASTER OF SCIENCE

## TOELATINGSVOORWAARDEN VOOR HOUDERS VAN EEN VLAAMS DIPLOMA

### Rechtstreeks:

- Ba ingenieurswetenschappen: chemische technologie en materiaalkunde
- Ba ingenieurswetenschappen, afstudeerrichting chemische technologie
- Ba ingenieurswetenschappen, afstudeerrichting materiaalkunde
- Ba ingenieurswetenschappen, afstudeerrichting: chemie en materialen

### Rechtstreeks: (naar brugprogramma - 120 studiepunten)

- Ma industriële wetenschappen: chemie
- Ma in Chemical Engineering Technology

### Via voorbereidingsprogramma: (max. 90 studiepunten)

- (andere) Ba ingenieurswetenschappen (incl. Ba ingenieurswetenschappen: architectuur)
- Ba in Engineering Technology, afstudeerrichting Chemical Engineering
- Ba in Engineering Technology, afstudeerrichting Electromechanical Engineering
- Ba bio-ingenieurswetenschappen
- Ba fysica en sterrenkunde
- Ba fysica
- Ba chemie
- Ba biochemie en biotechnologie
- Ba biochemie
- Ba industriële wetenschappen:
  - chemie
  - afstudeerrichting chemie
  - elektromechanica
  - afstudeerrichting elektromechanica
  - milieukunde
  - textieltechnologie
- Ba bio-industriële wetenschappen
- Ba ingenieurswetenschappen (KMS)

### TAAL

Je voldoet aan de taalvoorwaarden op basis van je Vlaams diploma.

# MASTER OF SCIENCE IN CHEMICAL ENGINEERING

120 ECTS CREDITS – LANGUAGE: ENGLISH – DEGREE: MASTER OF SCIENCE

## ADMISSION REQUIREMENTS FOR INTERNATIONAL DEGREE STUDENTS

Students who wish to enrol for the Master of Science in Chemical Engineering can enter the programme without any prerequisites if they hold the following diploma: an academic diploma of Bachelor (or Master) of Science in Engineering (university level, minimum three years), with the main subject in Chemical Engineering and/or Materials Science or an equivalent to this.

Admission can only be granted after an individual application procedure. The Study Programme Committee will make the final decision whether to accept the application or not. The Study Programme Committee can decide that students need to follow a preparatory course or an individual master's programme, for instance for students with another diploma of Bachelor or Master.

### LANGUAGE

More information regarding the required knowledge of English:
