Teaching languages

English

Keywords

Scientific English, academic language, vocabulary, grammar, communicative skills

Position of the course

This course aims to strengthen students' proficiency in English in an academic context. It offers an introduction into a number of essential academic communicative skills and it aims to expand their knowledge of grammar and vocabulary.

Contents

The following 3 skills are central within a scientific context:

- writing (a.o. literature review/RQ proposal)
 - reading (a.o. scientific article)
 - speaking (a.o. short presentations and interactions in an academic context)
- Also: vocabulary (situate in discipline, research questions, results, discussion and conclusions), grammar (asking questions, formulating hypotheses), citing, paraphrasing and plagiarism.

Students learn to use resources for academic English.

The course is independent of specific disciplines. The approach is multidisciplinary.

Initial competences

Level of English corresponds to competence at the end of secondary school in Flanders (intermediate - CEF: B1)

Final competences

- 1 The students can communicate effectively in English in a scientific context (written and oral).
- 2 They have enhanced competencies in reading and listening in academic English.

Conditions for credit contract

Access to this course unit via a credit contract is unrestricted: the student takes into consideration the conditions mentioned in 'Starting Competences'

Conditions for exam contract

This course unit cannot be taken via an exam contract
