Keywords

professional experience

Position of the course

The objective of internships is to allow students to get acquainted with real situations on the work floor by participating actively in the daily functioning at laboratoria, private companies, institutions or organisations which are potential employers in the field of marine and lacustrine sciences and management.

Contents

During a few weeks (minimum 4) students participate actively in the daily functioning of potential employers, by which tasks are fulfilled related to their educational background. Tasks are situated at different levels but will give a realistic idea of the activities at the work floor. Diversity in tasks is aimed for as much as possible

Initial competences

Students have sufficient background knowledge on marine and lacustrine sciences. They have already some practical skills in the field of marine and lacustrine sciences.

Final competences

1. By their experiences on the work floor students have developed a social correct attitude en engagement in a professional environment.
2. They achieve insights in real work situations and the social and professional opportunities offered by an employer.

Conditions for credit contract

Access to this course unit via a credit contract is determined after successful competences assessment

Conditions for exam contract

This course unit cannot be taken via an exam contract
