Written assessment with open-ended questions

Examination methods in case of periodic assessment during the second examination period

Written assessment with open-ended questions

Examination methods in case of permanent assessment

Skills test, Participation, Assignment

Possibilities of retake in case of permanent assessment

examination during the second examination period is possible

Extra information on the examination methods

Periodical evaluation in the first period of examination: written examination with open questions on phonology, morphology and syntax.

Periodical evaluation in the second period of examination: written examination with open questions on phonology, morphology and syntax

Non-periodical evaluation: continuous assessments portfolio with extra exercises (Ufora), skill test.

Second-chance examination in case of non-periodical evaluation: examination in the second period is not possible

Explanation of the evaluation forms: (a) Periodical: written examination with open questions (active and passive knowledge) on morphosyntax and phonology; the examination is directly linked to the final competences. (b) Non-periodical: permanent (tests on phonology, morphology, syntax)

Calculation of the examination mark

Periodical: written examination (70%)

Non-periodical: Permanent - tests (30%). (Participation in each part of the evaluation is compulsory).

Unmotivated absence at one of the tests leads to the score of zero for that test. The final mark is the different components' weighted average. Students can only achieve a pass for this course unit if they have a minimum of 10/20 for the periodical evaluation. If the student scores less than 10/20 for the periodical evaluation, and the final mark turns out to be a 10/20 or more, this will be reduced to the highest non-pass mark, i.e. 9/20.
