Contents

Initial competences

Final competences

- 1 The student has insight into the methodology of history.
- 2 The student has the ability to initiate problem-oriented historical research.
- 3 The student has the ability to set up a simple historical research strategy in the form of a roadmap.
- 4 The student has the ability to use software packages (Access, SPSS) independently in a correct and critical manner.
- 5 The student has the ability to indicate the most appropriate types of sources (for this course: quantitative method) relative to a specific historical research question.
- 6 The student is able to interpret, evaluate, and report on extant quantitative research and on one's own initial research or research plans.
- 7 The student is conscious of the importance of scientific integrity.
- 8 The student has an inquiring attitude with an aptitude for historical critique and creativity, and with a positive attitude towards lifelong learning.
- 9 The student has the ability to summarize their own historical quantitative research, using an adequate critical apparatus, in a coherently structured, scientific text, written in clear and academically correct language.
- 10 The student has the ability to cooperate with peers on a project basis.
- 11 The student has insight into the way in which historical scientific research functions and is organized.
