Teaching languages

Dutch

Keywords

prehistory, protohistory, Europe, archaeology

Position of the course

This introductory course is part of a series Domain-specific knowledge courses: chronological overviews, giving a global chronological overview of the human past. This course intends to give a survey of the global European prehistory and protohistory.

Contents

Chronological overview of the prehistoric and protohistoric periods, human evolution, industries and cultures of Europe, especially of Western Europe in the Palaeolithic, the Mesolithic, the Neolithic, the Bronze Age and the Iron Age.

Initial competences

Basic knowledge from French, English and German to read the specialised literature

Final competences

- 1 To have a general insight into the cultural evolution of the stone ages (prehistory) and metal ages (protohistory), especially within Europe.
- 2 To analyse the relations between different prehistoric events critically.

- 3 To gain insight into the main evolutions of various aspects of prehistoric and protohistoric societies.
- 4 To analyse specialist literature published in different languages critically.
- 5 To be able to situate the most important prehistoric and protohistoric events, cultures and sites in a chronological and geographical perspective.
- 6 Demonstrate general knowledge on biological process of evolution and the biocultural evolution of humans

Conditions for credit contract

Access to this course unit via a credit contract is unrestricted: the student takes into consideration the conditions mentioned in 'Starting Competences'

Conditions for exam contract

Access to this course unit via an exam contract is unrestricted
