

Introduction to the Natural Sciences in Archaeology (A003307)

Course size	<i>(nominal values; actual values may depend on programme)</i>		
Credits 6.0	Study time 180 h	Contact hrs	50.0 h
Course offerings and teaching methods in academic year 2023-2024			
A (semester 2)	Dutch	Gent	lecture independent work

Lecturers in academic year 2023-2024

Massagé, Liesbeth	LW02	staff member
Rousaki, Anastasia	WE06	staff member
Vandenabeele, Peter	LW02	lecturer-in-charge
Deforce, Koen	LW02	co-lecturer
De Groote, Isabelle	LW02	co-lecturer
Palmer, Jessica	LW02	co-lecturer
Pincé, Possum	LW02	co-lecturer

Offered in the following programmes in 2023-2024	crdts	offering
Bachelor of Arts in Oriental Languages and Cultures (main subject Arabic and Islamic Studies)	6	A
Bachelor of Arts in Oriental Languages and Cultures (main subject China (China Track))	6	A
Bachelor of Arts in Oriental Languages and Cultures (main subject China (UGent Track))	6	A
Bachelor of Arts in Oriental Languages and Cultures (main subject India)	6	A
Bachelor of Arts in Oriental Languages and Cultures (main subject Japan)	6	A
Bachelor of Arts in African Languages and Cultures	6	A
Bachelor of Arts in Archaeology	6	A
Bachelor of Arts in Art History, Musicology and Theatre Studies	6	A
Bachelor of Arts in East European Languages and Cultures	6	A
Bachelor of Arts in History	6	A
Bachelor of Arts in Moral Sciences	6	A
Bachelor of Arts in Philosophy	6	A
Preparatory Course Master of Arts in Archaeology	6	A

Teaching languages

Dutch

Keywords

Natural sciences, archaeology, archaeometry

Position of the course

This course is part of the package 'methodology'.
This course wants to help the students to gain insight in the methods and interpretation of natural scientific research in archaeology.

Contents

This course covers the first principles on sampling of archaeological material for natural

scientific research, and the possibilities offered by soil sciences, geology and geography for archaeology, archaeozoology, archaeobotany, physical anthropology, etc. Moreover, an overview is given of the most important analytical methods.

Initial competences

No specific preliminary knowledge or skills are required.

Final competences

- 1 To have an overview of the methodology of natural scientific research in archaeology.
- 2 To be able to evaluate natural scientific reports in an archaeological research project.
- 3 To be able to follow the archaeological literature on natural scientific research.
- 4 To be aware of the potential of natural scientific research in archaeology.
- 5 To have an ecological impression on human history.

Conditions for credit contract

Access to this course unit via a credit contract is unrestricted: the student takes into consideration the conditions mentioned in 'Starting Competences'

Conditions for exam contract

Access to this course unit via an exam contract is unrestricted

Teaching methods

Guided self-study, lecture

Extra information on the teaching methods

Lecture: Where students should take additional notes to the notes in the manual as well as to the provided study materials.

Guided self-study: the students should be able to process some texts on a self-reliant base

Excursion: the teacher can eventually organise a national excursion/lab visit.

Learning materials and price

Manual: Degryse P., Eryvynck A., Linseele V., Vandenabeele P., Verstraeten G., 2015.

Natuurwetenschappen en archeologie. Methode en interpretatie, Leuven: Acco. ISBN: 9789462921801

PowerPoint presentations and extra materials are available through Ufora.

Estimated price: 50 €

References

A list is available in the manual.

Course content-related study coaching

Individual coaching is possible after the courses, via Ufora or after making an e-mail appointment with the teaching staff

Evaluation methods

end-of-term assessment

Examination methods in case of periodic evaluation during the first examination period

Written examination

Examination methods in case of periodic evaluation during the second examination period

Written examination

Examination methods in case of permanent evaluation

Possibilities of retake in case of permanent evaluation

not applicable

Extra information on the examination methods

Part Ecological archaeology: open questions

Part Analytical methods:

- Terminology: explain in max. 5 lines.

- Statements: Agree or disagree

Calculation of the examination mark

End-of-term evaluation: 50 % of the marks are on the part ecological archaeology, 50% of the marks are on analytical methods.
