Teaching languages

Dutch

Keywords

Archaeology, Classical Antiquity, Roman World

Position of the course

This advanced course is part of a package Domain-specific knowledge courses, aimed at broadening the knowledge obtained during the first year. In this case the goal is gaining insight into the archaeology of the Roman world. Geographically the emphasis is on the Mediterranean region..

Contents

Functionally structured overview of the inheritance of Rome in the fields of urbanism, architecture and material culture. A series of capita selecta from modern Roman archaeology (funerary aspects, house analyses, transportation issues, urban organization, demography, the countryside ...) are presented and critically discussed.

Initial competences

- To have successfully completed the course Introduction to Greek and Roman archaeology and art or to have acquired the intended competences in another way.
- To have a broad understanding of the discipline of Classical Roman archaeology.

Final competences

- 1 To have an understanding of the essence of the material inheritance of Rome.
- 2 To be familiar with the basic characteristics of Classical Roman archaeology.
- 3 To be able to recognize and use the chronological tools from Classical Roman archaeology.
- 4 To value the importance of historical contextualization.
- 5 To be able to reflect critically on present-day research questions regarding this discipline.

Conditions for credit contract

Access to this course unit via a credit contract is determined after successful competences assessment

Conditions for exam contract

Access to this course unit via an exam contract is unrestricted
