Keywords

Research paper

Position of the course

In the research paper the student shows the ability to carry out scientific research independently. He or she gives proof of critical reflection and frames the object of research within a broader scientific and intellectual domain.

Contents

Gradual acquirement of a scientific habitat.

A critical and inquiring attitude, set within a theoretical frame, aiming at the ability to formulate an original research question.

Initial competences

- To be able to construct a scientific argumentation and independently formulate research questions.
- To have a critical sense

Final competences

- 1 To be able to do an independent and original research.
- 2 To be able to reflect critically on a research subject.
- 3 To be able to situate a research subject in a broad context.

Conditions for credit contract

Access to this course unit via a credit contract is determined after successful competences assessment

Conditions for exam contract

Access to this course unit via an exam contract is unrestricted
