Keywords

medical anthropology, transcultural psychiatry, global health, Africa, trauma, culture

Position of the course

This regional specialization taught at MA level offers advanced insights regarding the relation between health and culture. Most of all, it seeks to understand the African contemporary world from the perspective 'Power and medicine'. Exchange students may take up this course unit, for which no prior knowledge of Dutch is required.

Contents

- (1) History of medical anthropology; culture-bound syndromes and traditional healing; body, illness and medicine. 3 sessions
- (2) Theoretical developments: transcultural psychiatry, critical medical and sensorial anthropology. 2 sessions.
- (3) Methodology: ethnographic fieldwork of non-Western concepts of health and illness. Casestudies in Epistemologies of healing (Lake Victoria). 2 s.
- (4) Topics: a. Translating health issues among diaspora and asylum seekers, b. HIV prevention and stigma in Africa, c. Poverty, war and trauma.
- (5) Student Projects

Initial competences

Cultural anthropology (the course, or competence acquired in other ways)

Final competences

- 1 Comprehending and situating theory in medical anthropology
- 2 Skills in qualitative research methodology in the field of illness, health, therapy, medicinal practice, and traditional healing
- 3 Some knowledge of the history of non-Western aetiologies and treatments, particularly in Africa

- 4 Qualitative and critical approaches to interdisciplinary health research
- 5 Ability to design a collective medico-anthropological project

Conditions for credit contract

Access to this course unit via a credit contract is unrestricted: the student takes into consideration the conditions mentioned in 'Starting Competences'

Conditions for exam contract

Access to this course unit via an exam contract is unrestricted

Teaching methods

Seminar, Lecture

Extra information on the teaching methods

Students are required to be present and participate as they acquire the theoretical and methodological basis to develop a collective scientific project.

COVID19: Due to COVID19, teaching methods may change if necessary.
