scientific project, fundraising

Position of the course

This course can be taken as one of the two intensive courses to be followed. It trains the student to raise funds for his/her research project.

Contents

The student does an internship in the research team of the supervisor and writes a project proposal, which will be submitted to the FWO, BOF, or to another possibly foreign research foundation. This proposal outlines the student's future PhD research (state of the art, objectives, methodology, work plan, bibliographical references). The topic of this research may be, but must not be, related to the topic studied in the master paper.

Initial competences

To have successfully completed a master's thesis or to have acquired the intended competences in another way.

Final competences

- 1 Formulate a novel research question
- 2 Work out an original hypothesis
- 3 Work out the methodology to be adopted
- 4 Draw up a work plan
- 5 Present a research project to a selection committee

Conditions for credit contract

This course unit cannot be taken via a credit contract

Conditions for exam contract

This course unit cannot be taken via an exam contract

Teaching methods

Independent work

Extra information on the teaching methods

The students works out a research project, using the template provided by the research foundation, to which he/she will submit his/her project (FWO, BOF or another, possibly foreign research foundation).

Learning materials and price

Bibliography related to the chosen research topic
Instructions provided by the chosen research foundation

References

References depend on the chosen research topic and are provided by the supervisor and / or found by the student.

Course content-related study coaching

The choice of the topic of the research topic is made in collaboration with the supervisor, who helps the student to delineate the topic and to work out the work plan.

Assessment moments

continuous assessment

Examination methods in case of periodic assessment during the first examination period**Examination methods in case of periodic assessment during the second examination period****Examination methods in case of permanent assessment**

Assignment

Possibilities of retake in case of permanent assessment

examination during the second examination period is possible

Extra information on the examination methods

Project proposal presented in the template provided by the chosen research foundation.

Calculation of the examination mark

Project proposal : 100%

Facilities for Working Students

Appointments with the supervisor can take place online.
