Teaching languages

Dutch

Keywords

Archaeology, legislation, policy, scientific research

Position of the course

This advanced course is a general part of education within the archaeology master. It builds on the competences obtained in the archaeology bachelor.

Contents

The language used to teach is Dutch, but some lessons could be given in French or English.

Initial competences

This course builds on certain final competences of the bachelor's program in archaeology. At least passive knowledge of English and French is assumed to consult professional literature.

Final competences

- 1 Responding to the changing relationships between the research practice and the institutional and legal context of the archaeology practice, and being able to provide policy suggestions.
- 2 To participate critically in policy making and planning in archaeological research and heritage management.
- 3 To be able to write down an archaeological report according to the rules imposed by the government.
- 4 To be able to write a scientific archaeological research project.

Conditions for credit contract

Access to this course unit via a credit contract is unrestricted: the student takes into consideration the conditions mentioned in 'Starting Competences'.

Conditions for exam contract

This course unit cannot be taken via an exam contract.

Teaching methods

Seminar, Independent work

Extra information on the teaching methods

1 online discussion group, independent work, seminar
 online discussion group: students are encouraged to use the Ufora discussion forum
 independent work: the student draws up a full archaeological memo or an extensive
