Bachelor of Arts in Moral Sciences	crdts	offering
	5	A

Teaching languages

Dutch

Keywords

Morals, Sociology, Ethics, Moral Science, Empirical Ethics

Position of the course

The course 'Sociology of morality' is situated in the cluster 'ethics and moral science' and contributes to one of the central aspects of moral science, namely: the theorizing and mapping of the various forms of the social and cultural realization of moral systems; the critical study of morality and of the moral dimension of social phenomena; the role of morality in the social actor; and the socio-cultural-economic constitution of the moral actor.

Contents

- Morality, Ethics and Moral Science
- Sociological and Anthropological Perspectives on Morality
- Social and cultural contexts of morality and moral agency
- The moral organization of society

Initial competences

This course builds on the competences acquired in the courses Moral science, Philosophical ethics: systematics, Introduction to moral scientific research and Moral development and education. It is recommended that students have notions of sociology and anthropology.

Final competences

- 1 To have insight into the relationship between the social realization of morals, moral practices and moral theories.
- 2 To have insight into and knowledge of sociological and anthropological theories concerning the moral phenomenon.
- 3 To have insight into and knowledge of the social and cultural contexts that shape morality and moral agency.
- 4 To have insight into and knowledge of the moral dimension of society and how this is shaped by moral systems.

Conditions for credit contract

Access to this course unit via a credit contract is determined after successful competences assessment

Conditions for exam contract

Access to this course unit via an exam contract is unrestricted

Teaching methods

Lecture, seminar, self-reliant study activities

Extra information on the teaching methods

In addition to the plenary classes, students will follow group tutorials focusing on the guided discussion of primary texts. For each group tutorial, specific reading assignments will be given on the basis of which a preparatory assignment will be given.

Learning materials and price

Lectures, assignments and the texts for the tutorials will be made available via Ufora.
