Teaching languages

French

Keywords

Academic French (spoken and written), introduction to scientific written communication, understanding of the public debate about the evolution and use of the French language.

Position of the course

This advanced course aims to extend the students' proficiency in the French language with a focus on essay writing and the presentation of scientific subjects. The course helps students gain insight into the place of French in a larger socio-cultural context.

Exchange students may take up this course unit, for which no prior knowledge of Dutch is required, as exchange students will be set an alternative exam.

Contents

- Analysis of the structure of exhaustive scientific texts and the linguistic means to guarantee their cohesion
- Practical exercises related to these means
- Review of a number of themes within the field of language and society

Initial competences

To have completed the course French language proficiency III or to have acquired the necessary skills by other means.

Final competences

- 1 To have advanced knowledge of the French language.

- 2 To have a good command of editing techniques and strategies used during oral presentations, in an academic context
- 3 To understand the public debate about the evolution and use of the French language
- 4 To report on a linguistic theme related to the Francophonie

Conditions for credit contract

Access to this course unit via a credit contract is determined after successful competences assessment

Conditions for exam contract

This course unit cannot be taken via an exam contract

Teaching methods

Group work, Seminar, Independent work

Extra information on the teaching methods

- Seminar: interactive group lessons, supported by an electronic learning environment; preparation of a paper under the guidance of the teacher
- Group work: presentations
- Independent work: assignments

This course assumes the responsible use of generative artificial intelligence (GAI). During the lessons, what this means will be explained.
