Keywords

Interlingual translation Spanish-Dutch, electronic tools, translation technology tools

Position of the course

This unit aims at consolidating and enhancing the insights, knowledge and competences that the students acquired in the first two years of the bachelor. It relates to "Applied Linguistics 2", "Dutch: Translation from Foreign Language" and "Writing into Dutch".

Students translate authentic texts, namely economic texts. They learn to use specific heuristic methods and apply their knowledge of translation technology tools. Moreover, the translation exercises aim to enrich the general economic vocabulary and gain insight into complex syntactic structures.

Contents

The students practice:

- interlingual translation from Spanish into Dutch of economic texts
- intralingual translation (text revision)

The students also learn to use the heuristic and translation technology tools in a critical way.

Initial competences

The final objectives of the different Spanish and Dutch units of study of the second bachelor year.

Final competences

- 1 Having a command of Dutch at professional native speaker level in terms of

comprehension and writing skills and of Spanish at a C1 level of the Common European Framework of Reference for Languages in terms of reading and comprehension [B.1.2; assessed]

- 2 Recognising and independently interpreting language structures and language variation of the studied languages, with close attention for contrastive aspects compared to Dutch [B.1.3; assessed]
- 3 Recognising and interpreting differences in register, text genres and pragmatic features in Spanish texts [B.1.6; assessed]
- 4 Having knowledge and insight of the contextual factors that influence the translation process (commissionaire, medium, ...) [B.1.6; assessed]
- 5 Adequate translation of Spanish text fragments into Dutch based on an excellent knowledge of grammar, vocabulary, and with specific attention to translation aspects (lexical, grammatical, stylistic,...) [B.6.4; assessed]
- 6 Having knowledge of heuristic methods (dictionaries, electronic aids, ...) using them adequately and critically evaluating them [B.6.5; not assessed]
- 7 Assessing the usefulness of translation technology tools and use them appropriately [B.6.6; not assessed]
