Position of the course

This study unit wants to enhance oral communication skills in Dutch. The basic speaking skills conveyed in the study unit 'Dutch: Oral Skills (N2U1)' are optimized. The students are offered different professional situations to practise standard spoken Dutch, and are encouraged to produce clear, well-structured oral texts while gaining an awareness of the main aspects of presentational behaviour and debating.

Contents

In this study unit students practice their oral skills in various (un)prepared communicative situations, regarding the communication target (informative, instructive or persuasive). Their standardized pronunciation, speaking skills and prosody are analyzed and optimized. Attention is paid to presentational behaviour, body language, posture and vocabulary. Students learn to convey a message to a particular audience, employing supporting tools (e.g. vlogs and podcasts). The source texts are written or spoken.

Initial competences

The final objectives of the different Dutch units of study of the first bachelor, in particular those of 'Dutch: oral skills' (N2U1).

Final competences

- 1 Having a command of Dutch at professional native speaker level in terms of comprehension and oral skills.
- 2 Having knowledge and understanding of text production processes.
- 3 Having a strong language awareness and developing a sensitivity to the similarities, differences and interactions between different language registers.
- 4 Critically reflecting on their own thinking, learning, decisions and actions.
- 5 Based on acquired competences, acting correctly and tactfully in different communicative situations, based on an understanding of similarities, differences and interactions between different language registers.
- 6 Adequately interpreting, analysing, assessing and correcting written and oral communication.
- 7 Expressing oneself in complex, communicative situations in Dutch appropriate to the purpose, target group and media.
