Keywords
Translation technology, computer-aided translation, machine translation, terminology extraction, corpus query tools

Position of the course
The goal of this introductory course is twofold. On the one hand it provides insights into the basic underlying principles that are used in translation technology (sentence and word alignment, matching, standard formats, machine translation, terminology extraction, etc.). On the other hand, it provides hands-on experience with selected tools.
Translation technology does not only support the translator during translation, it can also support research in translation studies. This course opts for a blended learning approach and combines contact education for the theoretical part and guided e-learning for the practical part. It encourages students to engage in lifelong learning.

Contents
The course consists of a theoretical part and a practical part. The course covers the following topics:

Theoretical part:
- introduction to the main concepts of computer-aided translation
- the functioning of translation memories and word and sentence alignment
- the functioning of machine translation systems
- the functioning and usefulness of term banks, terminology management and terminology extraction tools
- (parallel) corpora and corpus tools
- standard formats for the exchange of term banks and translation memories

Practical part:
- translation memories
- sentence alignment software
- machine translation systems
- terminology extraction
- concordance software + advanced search queries on the Internet

Initial competences
The students have an insight into grammatical structures and have basic computer skills.

Final competences
1 Having basic knowledge and understanding in the field of translation technology [B1.7 assessed]
2 Having knowledge of relevant electronic resources, using them adequately and efficiently, and critically evaluating them [B6.5 assessed]
3 Assessing the usefulness of computer applications in the areas of translating and using them
Conditions for credit contract
Access to this course unit via a credit contract is determined after successful competences assessment

Conditions for exam contract
This course unit cannot be taken via an exam contract

Teaching methods
Guided self-study, group work, lecture, seminar

Extra information on the teaching methods
Theoretical part: lectures
Practical part: guided self-study, group work, and optional seminars

Learning materials and price
Theoretical part: syllabus and digital learning material + scientific articles on translation technology.
Practical part: learning materials for download on Ufora

Target price: 6 Euro

Evaluation methods
end-of-term evaluation and continuous assessment

Examination methods in case of periodic evaluation during the first examination period
Written examination

Examination methods in case of periodic evaluation during the second examination period
Written examination

Examination methods in case of permanent evaluation
Assignment, skills test

Possibilities of retake in case of permanent evaluation
examination during the second examination period is possible

Extra information on the examination methods
First session:
• Written exam (theoretical part)
• Skills tests and assignments (group works) (practical part)
Second session:
• Idem, group assignments will be converted to individual assignments

Calculation of the examination mark
Theoretical part: 70%
Practical part: 30%
First session:
• In order to pass, the student must obtain an average score of 10 or more, with a minimum score of 40% for the theoretical part and 50% for the practical part. If this minimum score is not obtained for both parts, the students can obtain a maximum of 9/20 as total score.
Second session:
• Partial results can be transferred to the second examination period. The part for which the students passed does not need to be re-examined. Students have however the right to use

(Approved)
the full second examination opportunity. The last obtained grades are then used to calculate the final mark.

Facilities for Working Students

- Exemption from attendance can be granted.
- Possible rescheduling of the examination to a different time.
- Limited possibility of feedback by e-mail, restricted to answering specific questions.
