Russian ; Dutch ; translation ; technical texts ; scientific texts.

Position of the course

The course unit "Russian : Specialized Translation Practice_2" (R4G2) aims to teach students to deal with specialized terminology in the areas of science and technology and also to familiarize themselves with new specialized domains.

Contents

Students initially translate popular scientific articles and later switch to the translation of more specialized texts typically used in the professional environment. Students prepare the translations at home using all available heuristic resources (dictionaries, translation technology, Internet sources) The translations are collectively discussed in class. Students are expected to bring a laptop to class when asked to do so.

Initial competences

Understanding, analyzing, translating and revising under supervision Russian texts of more than average difficulty.Making adequate and critical use of the relevant heuristic tools.

Final competences

- 1 Having a command of Russian at C1 level of the Common European Framework of Reference for Languages for comprehension, making it possible to accurately translate texts from professional environments from Russian into Dutch. [MV.1.1 ; assessed]
- 2 Underpinning views in a scientifically justified manner and sharing these with both lay people and colleagues in a coherent and clear manner. [MV.3.2. ; not assessed]
- 3 Integrating language and culture sensitivity and respect for diversity into the professional environment and the social debate. [MV.5.2. ; not assessed]
- 4 Translating general and specialized texts from Russian into Dutch. [MV.6.1. ; assessed]
- 5 In the translation process, adequately applying an advanced degree of contrastive linguistic expertise at different levels (lexically, grammatically, textually, pragmatically). [MV.6.2. ; assessed]
- 6 In the translation process, adequately applying advanced encyclopaedic, theme-based,

- cultural and intercultural knowledge. [MV.6.3 ; assessed]
- 7 During the translation process, making use of traditional and electronic resources, as well as specific technological tools. [MV.6.4 ; assessed]
- 8 Adequately applying the acquired knowledge of the translation sector and the translator's deontology to practicing the profession of translator. [MV.6.5; not assessed]
