Keywords

Dutch, speaking skills, pronunciation, prosody, verbal competence, register, standardisation

Position of the course

This study unit wants to enhance oral communication skills in Dutch. It focuses on how to behave towards regional accents and to optimize speaking skills. The students are offered different professional situations to practise standard spoken Dutch, and are encouraged to produce clear, well-structured oral texts while gaining an awareness of the main aspects of presentational behaviour.

Contents

Students learn basic phonetic terminology and phonetic alphabet, their pronunciation is recorded and evaluated. They learn to identify accents in Dutch in order to standardize their own pronunciation. Students practise articulation and speaking skills in different ways, e.g. by reading texts. Attention is paid to registers of spoken Dutch, lexical and structural characteristics of oral communication and prosody.

Initial competences

The final objectives of the different Dutch units of study of the first bachelor.

Final competences

- 1 Having a command of Dutch at professional native speaker level in terms of comprehension and oral skills.
- 2 Having knowledge and understanding of text production processes.
- 3 Having a strong language awareness and developing a sensitivity to the similarities, differences and interactions between different language registers.
- 4 Critically reflecting on their own thinking, learning, decisions and actions.
- 5 Based on acquired competences, acting correctly and tactfully in different communicative situations, based on an understanding of similarities, differences and interactions between different language registers.
- 6 Adequately interpreting, analysing, assessing and correcting written and oral communication.
- 7 Expressing oneself in complex, communicative situations in Dutch appropriate to the purpose, target group and media.
