**Conditions for exam contract**

This course unit cannot be taken via an exam contract

**Teaching methods**

Work placement

**Study material**

None

## References

### Course content-related study coaching

Internships are sought by the lecturer and presented to the students. The student can also come up with a proposal himself.

The student is insured for personal physical injuries and for damage which might be caused to third parties during his internship. For this insurance, the internship contract is essential. This contract should be completed and signed by all parties. This administrative procedure should therefore be completed before the actual start of the internship.

### Assessment moments

continuous assessment

### Examination methods in case of periodic assessment during the first examination period

### Examination methods in case of periodic assessment during the second examination period

### Examination methods in case of permanent assessment

Professional practice, Participation, Presentation

### Possibilities of retake in case of permanent assessment

examination during the second examination period is possible

### Calculation of the examination mark

The final score is determined based on an overall assessment of the different evaluation forms.
