continuous assessment

Examination methods in case of periodic assessment during the first examination period**Examination methods in case of periodic assessment during the second examination period****Examination methods in case of permanent assessment**

Skills test, Participation, Job performance assessment, Assignment

Possibilities of retake in case of permanent assessment

examination during the second examination period is possible in modified form

Calculation of the examination mark

Continuous evaluation. The student's final grade will be calculated as 60% from a written report and 40% from the student's practical performance during the hours of practical work. An evaluation form will be filled in by each supervisor as a justification of the scores given. Retakes are possible for the written report. However, if the student fails in terms of practical performance, either a new laboratory methods must be taken or additional hours of work must be carried out.
