Position of the course

Students will engage in a ten week period of internship within a business of relevance to the Blue economy sector. During the internship students will work under the guidance of a mentor in business and an academic supervisor from the university.

Contents

Learners will be encouraged to arrange an internship with a business that will provide them with an experience of relevance to their future careers. The internship should develop the learner's professional competence, increase their self-awareness and help inform decisions concerning their career path.

Initial competences

Final competences

- 1 Describe how their internship experience has improved their professional competence (e.g. through an improved ability to: communicate and work effectively with others; show initiative and work independently; organise their workload and set priorities; respond to new challenges and changing situations).
- 2 Critically evaluate how they have contributed to their host business' objectives.
- 3 Explain how they applied previously acquired theory and practical knowledge to their professional duties in the host business.
- 4 Explain how their internship experience has modified their career aspirations
- 5 Assess the effect of their internship on their future employment prospects.
