Keywords

Philosophy, Critical thinking, Ethics, Knowledge, Science, Philosophy of Sport, Sport Ethics

Position of the course

One aim of the DBBESP is to produce people that have knowledge and skills to give a scientifically based training to people who do sports (professional or/ and non-professional). A second aim is to produce people who can do scientific research in this area.

This course deals with philosophical topics that are, given these aims, relevant for the students.

This subject contributes to the fields of competences of the course Bachelor of Physical Education and Movement Sciences: B1.7, B1.11, B2.1, B2.7, B5.8, B5.9 en B5.10

Contents

In this course students are introduced with central philosophical and ethical issues and viewpoint on man, knowledge and world. The course also provides a introductory overview int philosophy and ethics of sport.

The first part of the course provides an overview of the major philosophical problems, of the most prominent schools of thought attempting to solve these problems, and of the salient concepts that have become characteristic to philosophical thought.

In the second part of the course the main ethical viewpoints and strategies for deliberation will be introduced. These will be applied to issues in the philosophy and ethics of sport.

Initial competences

None

Final competences

1 To understand the specific nature of philosophical problems.

2 To grasp the current philosophical thinking, with the historical background in mind.

3 To define the most significant terms of philosophy.

4 To recognise the principal schools of thought and their proponents.

5 To be able to describe philosophical as well as other methods of acquiring rational knowledge.

6 Having insight in some of the main issues and perspectives in the philosophy and ethics of sport

Conditions for credit contract

Access to this course unit via a credit contract is unrestricted: the student takes into consideration the conditions mentioned in 'Starting Competences'

Conditions for exam contract

Access to this course unit via an exam contract is unrestricted

Teaching methods

Lecture

Extra information on the teaching methods

The lessons will consist of on campus lectures that will, simultaneously, be live streamed. Classes can therefore be attended both on campus and online.

Because of COVID19 the teaching format can change when this is absolutely necessary for COVID19 reasons

Learning materials and price

A syllabus will be made available. The course material consists of a written syllabus, powerpointpresentations and scientific articles
