Teaching languages

Dutch

Keywords

project, teamwork, oral and written report

Position of the course

The project has the intention to put the students to work in small groups in order to solve a problem that is new for them and that requires skills from different earlier courses. Special attention is also devoted to communication skills (oral and written report) and to teamwork.

Contents

- Principles of Project Management: Principles of Project Management
- Project realization
- Reporting

Initial competences

As defined in the Curriculum Rules of the Faculty of Engineering and Architecture (<http://www.ugent.be/ea/en/for-degree-students/your-studies-in-ghent/study-programme.htm>), this course unit can only be taken as the last course unit in the bachelor's programme. This course unit builds on the learning outcomes of the previous course units of the bachelor's programme.

Final competences

- 1 Being able to plan a project.
- 2 Knowing how to use project management software.
- 3 Performing project work efficiently in a group.
- 4 Being able to distribute group work evenly between the group members.
- 5 Being able to change the planning and group dynamics when needed.
- 6 Linking several knowledge domains.
- 7 Keeping a global sight over the project.
- 8 Finding a clear structure in project tasks.
- 9 Approach project work methodically.
- 10 Being able to capture the essence of the project work in a short report.
- 11 Being able to present the work clearly to fellow students.

Conditions for credit contract

This course unit cannot be taken via a credit contract

Conditions for exam contract

This course unit cannot be taken via an exam contract

Teaching methods

Group work

Learning materials and price

Project description, slides on project management

References**Course content-related study coaching**

Projects are coached by different promoters and assistants.

Assessment moments

continuous assessment

Examination methods in case of periodic assessment during the first examination period**Examination methods in case of periodic assessment during the second examination period****Examination methods in case of permanent assessment**

Oral assessment, Presentation, Assignment

Possibilities of retake in case of permanent assessment

examination during the second examination period is possible in modified form

Extra information on the examination methods

During semester: graded project reports; graded oral presentations, project work and approach.

Calculation of the examination mark

- Eindscoreberekening eerste zitting: 100% beoordeling van het projectwerk
- Eindscoreberekening tweede zitting: de eindscore van de tweede zitting is het gewogen gemiddelde van de evaluatie in de eerste zitting en de beoordeling van de bijkomende prestatie in de tweede zitting, waarbij het resultaat nooit lager kan liggen dan de beoordeling van de eerste zitting.
