#### Conditions for exam contract

Access to this course unit via an exam contract is unrestricted

#### Teaching methods

Seminar, Lecture, Independent work

#### Extra information on the teaching methods

This course assumes the responsible use of generative artificial intelligence (GAI). During the lessons, what this means will be explained.

The student-teachers - teachers in training - in a LLO-trajectory have to realize the above-mentioned goals and competences through an alternative portfolio-trajectory. The assignments are elaborated in a manual. There are a number of contact-moments, intervision and coaching. A full LLO-trajectory includes a teaching assignment of minimal 500 hours (this corresponds with teaching assignment of 12 hours a week). Students with an assignment between 200 and 500 hours participate in the LLO-trajectory on a part-time basis. A candidate with a LLO-trajectory of less than 200 hours (this corresponds to a teaching assignment of less than 5h per week) can not be admitted to the portfolio-trajectory. Such students must follow the regular learning-trajectory.
