Teaching languages

English, Dutch

Keywords

Disability studies, disabled persons, disability research.

Position of the course

This course is part of the Masters Program of Educational Sciences

With this course we try to link to following strategic goals: multiperspectivism - how to handle diversity? - critical paradigm and research - how to link scientific research with trying to get societal impact?

We explore the transdisciplinary research area of Disability Studies - Mad Studies - Crip Studies, Dis/Crit... We look at how ableism affects the lives of people with disabilities.

Contents

This course is developed together with the students, with external stakeholders and with international colleagues. We will work with (COVID-proof) course moments and small group work.

In agreement with the students and their participants, group works can be made available on the "Zonder Grenzen" website after all ethical conditions for "student research" have been met.

Initial competences

This course is linked to knowledge about Diversity and Intersectionality

Final competences

- 1 To participate actively in important orthopedagogical social discussions that arise around concepts like integrated treatment, inclusion, and empowerment.
- 2 To situate various scientific approaches and to evaluate them critically and to integrate them in function of their potential utility for the resolution of orthopedagogical problems.
- 3 To develop one's own expertise and, in the context of team work, the ability to confront it with, and integrate it into, the perspectives and competencies of 'others' (both 'clients' and 'colleagues').
- 4 To situate basic concepts from the theory formation concerning disability studies and to reflect critically on the consequences thereof for the support of people with limitations.

Conditions for credit contract

Access to this course unit via a credit contract is unrestricted: the student takes into consideration the conditions mentioned in 'Starting Competences'

Conditions for exam contract

This course unit cannot be taken via an exam contract

Teaching methods

Group work, Seminar, Lecture, Independent work

Extra information on the teaching methods

Teaching language is Dutch, some English spoken guest lectures are possible (aanbodssessie A)

Learning materials and price

Texts will be presented through UFORA, no extra literature costs for this course

References

Reader ter beschikking via Ufora

Course content-related study coaching

Interactive support using UFORA.
Students receive group-related feedback during helpdesk moments or after an explicit request during their work process in small groups.

Assessment moments

continuous assessment

Examination methods in case of periodic assessment during the first examination period**Examination methods in case of periodic assessment during the second examination period****Examination methods in case of permanent assessment**

Oral assessment, Assignment

Possibilities of retake in case of permanent assessment

examination during the second examination period is possible in modified form

Extra information on the examination methods

students are evaluated by an external jury on their groupwork within a presentation. This presentation is accompanied by a group paper.

For the non-periodical evaluation there is the possibility for an alternative exam in the second examination period. Description: after the feedback through a student specific assignment.

Calculation of the examination mark

Presentation = 50%

group paper = 50%

Students who eschew one or more parts of the evaluation can no longer pass the course. Final scores will be reduced to the highest non-deliberative quotation (7/20) in case the final score is higher.

Facilities for Working Students

students with a job can get reasonable accommodations
