Examination methods in case of periodic assessment during the second examination period

Written assessment

Examination methods in case of permanent assessment

Assignment

Possibilities of retake in case of permanent assessment

examination during the second examination period is possible

Extra information on the examination methods

not periodic: 1 lesson preparation and 1 micro-teaching. In the second examination opportunity, the micro-teaching is replaced by a more extensive lesson preparation.

periodical: written exam that tests the extent to which students can apply the subject didactic contents to basic Latin grammar and to Latin text fragments from the school canon

Participation in the permanent evaluation is mandatory. In case of legitimate absence, the lecturer in charge proposes another evaluation moment.

Calculation of the examination mark

Written exam counts for 75% of the final score. Assignment (lesson preparation) and peer teaching (micro-teaching) are evaluated based on competencies according to a rubric and together count for 25%.

If one does not participate in one or more parts of the evaluation, one can no longer pass the entire course. If the final score would be a mark of 8 or more out of twenty, this will be reduced to the highest non-deliberable mark (maximum 7/20).
