GHENT UNIVERSITY

Course Specifications

Valid as from the academic year 2020-2021

Microbiology for Resource Scientists: Lab Course (I002847)

Due to Covid 19, the education and evaluation methods may vary from the information displayed in the schedules and course details. Any changes will be communicated on Ufora.

Course size *(nominal values; actual values may depend on programme)*

Credits 3.0	**Study time** 75 h	**Contact hrs**	75.0 h

Course offerings in academic year 2022-2023

A (year)	English	Gent

Lecturers in academic year 2022-2023

Schlöhmann, Michael	FREIBE01	lecturer-in-charge
Kaschabek, Stefan	FREIBE01	co-lecturer

Offered in the following programmes in 2022-2023	**crdts**	**offering**
International Master of Science in Sustainable and Innovative Natural Resource Management	3	A

Teaching languages

English

Keywords

Position of the course

Contents

Working sterile; preparation of minimal and complex media; pouring of plates; enrichment, isolation and identification of microorganisms. Experiments on various metabolic properties of microorganisms (e.g. leaching of sulfides). Turbidity measurement, HPLC analyses, colorimetric determination of ions in solution.

Initial competences

Mandatory: Microbiology for Resource Scientists: Lecture, 2018-07-03 oder (or)"Grundlagen der Biochemie und Mikrobiologie" oder (or) equivalent Recommendations: Knowledge in general, inorganic and organic chemistry.

Final competences

The students will have obtained experience in basic microbiological methods. They are able to prepare sterile media, to cultivate microorganisms and to enrich as well as isolate pure cultures. They are able to follow the growth of cultures and to analyse substrate conversion and product formation during cultivation.

Conditions for credit contract

This course unit cannot be taken via a credit contract

Conditions for exam contract

This course unit cannot be taken via an exam contract

Teaching methods
