Initial competences

none

Final competences

Students can assess the effects of business decisions on their asset, financial and earnings position and understand financial and sustainability reports of companies. In addition, students get to know financial and non-financial key performance indicators and their relevance for the management and financing process of companies. The students are enabled to draw up and interpret financial plans. They can assess the importance of financial planning and sustainable economic activities on business financing. Reasons for a business valuation can be recognized and factors influencing business valuation can be identified.
