

Exploration Geochemistry (1002923)

Course size *(nominal values; actual values may depend on programme)*

Credits 5.0 **Study time 150 h**

Course offerings in academic year 2023-2024

A (semester 1) English Gent

Lecturers in academic year 2023-2024

Mattsson, Hannes UPPSAL01 lecturer-in-charge

Offered in the following programmes in 2023-2024

	crdts	offering
International Master of Science in Sustainable and Innovative Natural Resource Management	5	A

Teaching languages

English

Keywords

Position of the course

Contents

Geochemistry for regional exploration. Exploration of mineralized rocks, including ore minerals, alteration assemblages and host rock. Estimating grades and tonnage from geochemical data, drill cores and image analysis. Environmental geochemistry of mine sites applied to monitoring and remediation.

Initial competences

Final competences

- 1 On completion of the course the student shall be able to:
 - Identify and explain geochemical anomalies associated with ore deposits and mineralizations
- 2 - Critically analyze and interpret geochemical exploration data
- 3 - Construct an exploration plan based on geochemical information

Conditions for credit contract

This course unit cannot be taken via a credit contract

Conditions for exam contract

This course unit cannot be taken via an exam contract

end-of-term and continuous assessment

Examination methods in case of periodic assessment during the first examination period

Participation, Written assessment

Examination methods in case of periodic assessment during the second examination period

Participation, Written assessment

Examination methods in case of permanent assessment

Participation

Possibilities of retake in case of permanent assessment

examination during the second examination period is possible in modified form

Extra information on the examination methods

Active participation in seminars and lectures (2 hp), written exercises (3 hp).

If there are special reasons for doing so, an examiner may make an exception from the method of assessment indicated and allow a student to be assessed by another method. An example of special reasons might be a certificate regarding special pedagogical support from the disability coordinator of the university.

Calculation of the examination mark
