Keywords

History of European integration, current developments in European politics

Position of the course

This is a basic course aiming to familiarize students acquainted with the history of European integration from WW2 to the present day and to offer them a framework in which current developments can be situated. Attention is paid to the most recent developments, which may be suggested by students, who are expected to offer input for discussion during the lecture.

Contents

Each lecture pays attention to the most recent developments in European politics. In this, students may provide input, suggesting topics and offering comments for discussion.

In addition, the course presents a general overview of the most important theories of integration and of events in the history of European integration from WW2 to the present day:

- Theoretical approaches of European integration (basics)
- The precursors of European Integration after WW2
- The establishment of the ECSC, the failure of the EDC
- The Rome Treaties
- Malaise in the Sixties
- Eurosclerosis in the Seventies
- Towards the Single European Act
- The Maastricht Treaty in the international context
- Europe in the Nineties
- The ups and downs of the European Constitution and the Treaty of Lisbon

Initial competences

None

Final competences

- 1 - To be able to explain the history of European political integration from WWII to present day.
- 2 - To be able to critically analyze and interpret events and evolutions in the European Integration
- 3 - To be able to apply theoretical models of political integration to statements on European political integration
- 4 - To be able to form and formulate a sound opinion on (current) political

developments in the EU

- 5 - To be able to critically reflect on the applicability of European integration theories to the history of EU integration.
- 6 - To adopt a critical attitude toward statements concerning European integration
- 7 - To be able to independently and critically follow up current political events.
