Extra information on the examination methods

Assignments consist of individual and/or group assignments, which take the form of reports, papers, blog entries and/or videos. Deadlines and criteria are announced via UFORA.

Oral exam consists of group presentations during the seminars. Deadlines and criteria are announced via UFORA.

Individual participation will be evaluated during the four seminars. Data and criteria are announced via UFORA.

Second exam opportunities for continuous assessment: A written report can be submitted as a replacement for the continuous assessment.

Calculation of the examination mark

The final mark is based on the following weighting factors: assignments: 50% (10/20); oral exam: 40% (8/20); participation: 10% (2/20).

If there is clearly a different input from different group members, then the final mark per student belonging to the same group can still differ.

The deadlines for assignments must be respected. If not, a mark can be deducted from the total.

Students who eschew one or more parts of the evaluation can no longer pass the course. Final scores will be reduced to the highest non-deliberative quotation (7/20) if the final score would be higher than 7/20. When the student scores less than 10/20 for at least one of the components, he/she can no longer pass the entire course unit. If the total score is a mark of ten or more out of twenty, then this is reduced to the highest failing mark (9/20).

Facilities for Working Students

Possibility to make an appointment for feedback during and after office hours after consultation with the lecturer-in-charge. A written report can be submitted as a replacement for the continuous assessment.
