Research Master of Arts in Philosophy	9	A

Onderwijstalen

Engels

Trefwoorden

causation, explanation, evidence-based policy.

Situering

This course is one of the eighteen research seminars that constitute the core of the master programme. Depending on initial qualifications, students enrol for three or five such research seminars.

Inhoud

The lecturers' research into causality and explanation in the biomedical and social sciences is used as a resource to teach the students how they can make constructive and well-founded contributions to various philosophy of science debates in the disciplines involved. For students enrolled in the research master detailed information is available on the Ufora-site 'ReMa Philosophy General Information'.

Begincompetenties

Knowledge of philosophy of science at intermediate level.
Competent in philosophical writing and argumentation

Eindcompetenties

- 1 Ability to formulate original and innovative research problems based on the duly founded insight into the internationally recognised state-of-the-art in the philosophy of the biomedical and social sciences.
- 2 Ability to work out original solutions to the selected research problems, and argue for them clearly and convincingly.
- 3 Ability to deepen one's knowledge of the philosophy of the biomedical and social sciences independently.
- 4 Ability to report on research orally (for academic peers) in a clearly-understood manner.
